## Hamlin Community Purchased Bonds Totaling \$312,000--\$25,500 Over Top

It is always a satisfying feeling for a home newspaper to record for the community a job well done. And what a job!

This report on Hamlin's Third War Bond drive is for historical purposes purely, plus sending to our boys, in distant lands, the good news that the home folks are backing them up with their money.

Wouldn't it be a discouraging situation if the Herald had to report this week that Hamlin people had failed our boys, who are offering and paying so much for this land? But that is NOT the case. Hamlin, like thousands of other American communities, has done herself grand in lending Uncle Sam a part of the cash on hand, and in many cases, cash that was not on hand, so that every angle of war work may be carried on to hasten the day of the return of our young people, the flower and hope of this nation.

Yes, Hamlin's deposits indicated that she should lend the government \$286,600. One week ago this Thursday, Hamlin lacked a great deal of having that amount of bonds sold. Many citizens were getting uneasy. Two days only to go and over \$60,000.00 more bonds were to be sold. Something had to be done. A great bond rally was planned.

So here is the way future generations will read how Hamlinites put over a grand job back in 1943, when our boys on the battle lines were advancing against the enemy on every front.

Camp Berkeley with its great Eleventh Armored Division and the big MRTC camp, all soldiers of the first class and willing to boost for bonds as well as fight in bloody battle, were called upon to "come over and help us."

Extensive advertising was put out, thousands of people were informed of the program, of the soldiers to be in Hamlin with the Eleventh Armored equipment, jeeps, half tracks, small tanks and medium tanks, guns and courteous soldiers to tell us all military expediency would permit. So Thursday afternoon by 4:00 o'clock, Major David Evans and Lieut.-Colonel, Arthur Stout, Chaplain, both of the MRTC and their great band were in Hamlin ready for business. The way these officers and the bandmen stepped around in Hamlin, it would make you think they had just arrived home. That's the way Hamlin people wanted them to feel. They were at home here. That's the way Hamlin people feel towards soldiers.

In a few minutes here came,

thundering down the highway, the 11th Motored equipment with Lieut. Kasserman in command. This gave hundreds of people their first glimpse of what our men are using against our enemies. The men made a sweep down the main street, and then parked one tank where kids, old men, women and girls could see, touch, go inside, ask questions and play like they were going over the top.

Time for "supper" came and the Chamber of Commerce had arranged a picnic feed for the soldiers at the McCurdy Cabin on the Lake. Private homes were provided for the boys. Everything was set for the big program in the Pied Piper Foot Ball Field under the big lights. At least 3,000 people gathered there, the band played and played. Hundreds more inspected the big guns, the loud speakers reached every nook and corner. The program started.

Tate May was chairman and introduced Chaplain Arthur Stout, a Waco minister, who had seen eleven years' army service, and now up in years but filled with emotions and energy seldom seen in younger men. Chaplain Stout delivered one of the most stirring addresses, it would seem possible. He literally set that throng of people thinking and feeling. But to lay the proper setting for his talk, Aviation Lieutenant J. B. Duvall, one of Abilene's most famous war heroes, who was wounded while over Germany, was introduced and made a very impressive but modest talk. Hit father was on the rostrum, and out of honor to the young hero, the whole audience stood and cheered. So no wonder Chaplain Stout had a suitable setting for his wonderful talk. He introduced Major Evans, who had been in the thick of the Argonne Forrest battle in 1918. Both of these men have boys now on the battle fronts, and modestly mentioned them. Major Evans is a "Dam Yankee" from Pennsylvania, who said he had the advantage over the Texans. He couldn't help being born in some other state but now he is choosing Texas as his future home after the war. So the Major made a clean hit by complimenting Texas and Texas people. He waded into the task, soldier-like, no fun, no foolin'. He impressed everybody that "this is your war too." Major Evans understands humanity. He hit a straight run for bonds, thousands of dollars worth. In no time he had men and women standing up to buy thousands worth. He related how men in war went in to do a death

taking job and never thought of failing or stopping. So when he let up, Hamlin community had gone over the top, totaling \$312,000, making it \$25,500 more than was asked for.

Hamlin boys, wherever you are, you should have been on the ball field that night. We thought of you, we paid honor to the ones who have died, who are missing and who were wounded, as far as we could know.

Thank you Major Evans, Chaplain Stout, Lieut. Kasserman, your men and that never tiring MRTC band. We made it, by your help. We want you to come back to Hamlin again just to visit "home folks".

### Pied Pipers Win Game From Spur Bulldogs

Hamlin Pied Pipers showed lots of fight last Friday night as they battled the Bulldogs from Spur, and finally eked out a six point margin of victory over a hard hitting team.

Spur scored in the first two minutes of play after taking a short punt on the Hamlin 39 yard line. On the first play after receiving the ball, Ball rushed through the Hamlin line for 39 yards and a touchdown. Try for extra point failed.

The Pipers were not to be outdone and after taking the kickoff on their own 30 yard line, they steadily marched down field for a touchdown with Myers and Barnett doing the ball carrying. Barnett made the score. Conversion failed. Score 6-6.

Again in the first quarter the Pipers proved their offensive strength when they battered their way 75 yards through a tough line for another six points. Barnett again took scoring honor. Score 12-6, Hamlin.

In the second quarter the score was again evened when Ball for the Bulldogs went 18 yards through the line for a touchdown. Score 12-12.

The Pipers made the deciding tally in the last quarter when they marched 59 yards with one first down after another to score. Extra point failed. Score 18-12.

Hamlin's scores came the hard way. The first came after working the ball 70 yards down field, the 2nd was for 75 yards and the last for 59 yards.

Spur's scores were on 35 and 18 yard runs.

Hamlin made 20 first downs; Spur only 8.

## THIS WEEK

A LITTLE BIT ABOUT

*This*

AND A LITTLE BIT OF

**THAT**

—ZIPPER? Ask any man what a zipper is, or how it zips and he will say "I don't know."...talking about zippers, they are the most modern machinery in use....so modern it is a puzzle how they zip and bang-up the slit or opening is closed, but how? They do the trick, but how?

—Sometimes we hear folks open up their jabber and we wonder if they could stand a zipper....jabber has been running rampant this week up in Washington, mostly by commentators who want taxes paid, but not by "my firm."

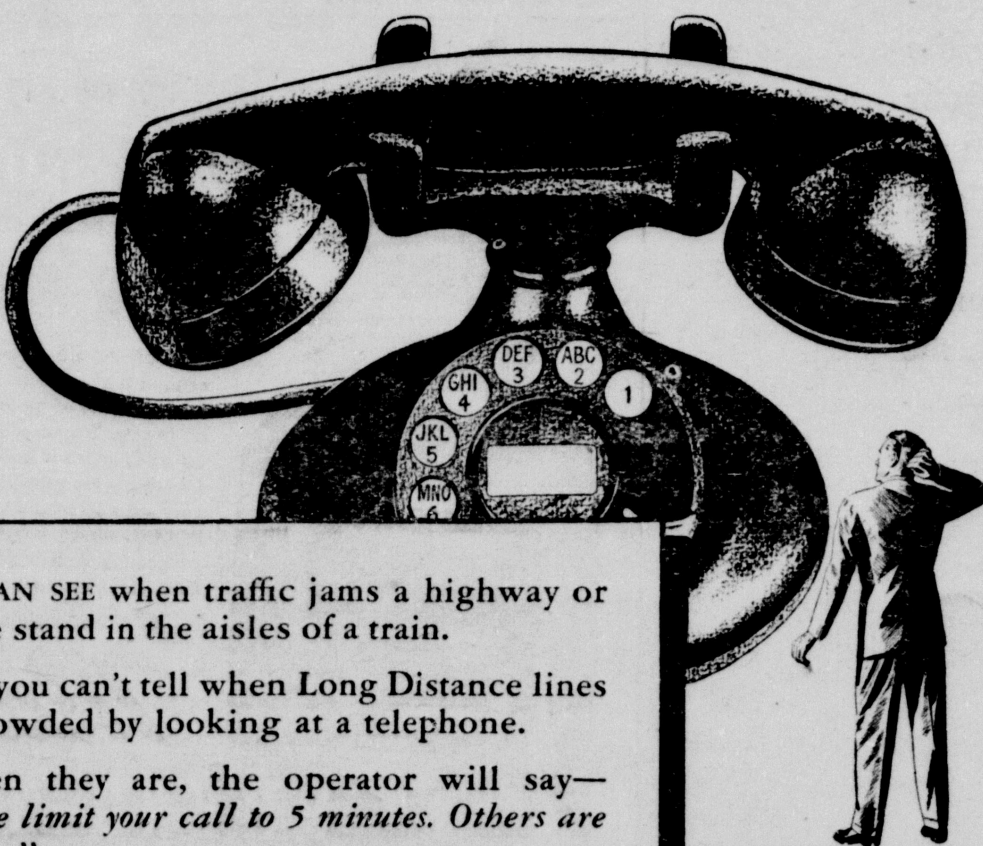

—Fifteen days ago we were all about to burn up, this October 7th it is too cool to be comfortable without fire....Jack frost is not far away, and no general rain yet. However some spots have had pretty good rains, and there are a few fields of fresh wheat up. People who wait till the time is just right before sowing grain usually wait a long time for grazing.

—Did you know this is tax-paying time? That reminds us. This week we saw where the Jones County Tax Assessor-Collector was asking "for economy sake" that persons who send in their taxes by check or money order, to fill out their renditions for 1944 and mail back to him. Not a bad idea. But the blank you must use is printed in Austin. Wonder how much taxes that Austin firm pays in Jones County? There are five good printing plants in Jones County, either of which would be glad to print all blanks used by our county.

—It is too bad that people must fight for their rights. Heck, fighting is what makes us strong. There are just two ways to do things—the right and wrong. When it is right hold it up and when it is wrong give it hell. That is why we are in this war.

When they are, the operator will say—"Please limit your call to 5 minutes. Others are waiting."

That's a mighty good rule for these days. Helps you. Helps us. Helps the war.

Max B. Carlton writes from his big ship from somewhere on some big ocean that he is well and happy, and buying a 100 dollar bond every month. Max has already sailed, except that his ship really runs by steam power, however he "sails." He is an Aviation Machinists Mate, 2-C. And another thing—he is in the Victory Division of that ship (V. Division).

Sgt. Hubert G. Carson came Wednesday from Salt Lake City, Utah, to visit his parents, Mr. and Mrs. A. T. Carson and sister, Miss Mildred Carson. Sgt. Carson has been in service since January and this is his first furlough. He is a gunner in the Air Corps and recently received his wings, and was one of 10 honor students in his class.

Pvt. D. W. Carlton Jr., who has been stationed at Camp Wolters, has been transferred to the Medical Corps and is now in McClosky Hospital in Temple.

The Herald has a letter from our newest neighbor boy, Billy Armstrong, who is now taking his boot training as a Coast Guard at Alameda, Calif. Billy says he is learning how it is done and they keep him hustling from 5:30 until 8:00 o'clock at night. Billy says he has already learned all about K. P. "The barracks are all kept neat and spotless, as I can testify...in short, everything is wonderful. I mean, I really like it. If you at all try to co-operate with your superiors they will more than come half way." Say Billy, you got the stuff in you to make a real sailor.

The happy face of Pfc. J. H. (Pinky) Fitzgerald, was seen in Hamlin Sunday. He came down from the Lubbock Air Field just for the week end to visit his wife.

## About Soldiers--Sailors

Let's see what Bill Harbert says: "Well, I have not much news, as usual. I received three Heralds and nine letters, which I was very proud to get. I got the picture but I don't think I look like that now...in the first place I am about to get bald-headed. I don't think I'll be completely bald by the time I get back." Bill says he must be somewhere near Arlie Castle, but can't locate him without his address. Arlie is somewhere in the S.W. Pacific.

Pfc. James C. Sasser of the Bryan Field came up last Saturday for a short visit with his parents, Mr. and Mrs. G. B. Sasser, who live south of Hamlin.

Lieut. Thomas H. Williams, son of Mrs. Vivian Williams, arrived home from Brooks Field, San Antonio, after receiving his commission as a flyer on Friday. Thomas is 22 years of age, and had trained at Kelly Field, at Tulsa, at Independence, Kansas, and Brooks Field. One of the most interested persons at the graduation ceremony was Lieut. Williams' grandfather, T. E. Harden and the mother, too.

Pfc. James I. Embrey from Camp Irwin, Calif., has been visiting his mother, Mrs. Rosa Embrey the past ten days. While on his furlough he will also visit his wife at Pacific Grove, Calif., where she is a teacher.

It would seem that Pfc. Jack Phillips is on the briny waters or across as he asks his mail to be sent care of the Postmaster, New York, N. Y. Jack's message was "Tell everybody hello for me...still appreciate getting letters from down that way."

Lester Jenkins is getting farther and farther away. He is now in Mather Field, Calif. That is a long way from Dovie, Lester.

Lieut. E. S. Harber and wife of Fort Benning, Ga., came in for a surprise visit with his parents, Mr. and Mrs. H. C. Harber. They will go from here to Waco to visit his sister, Mrs. Joe L. Ward and then to Oklahoma for a visit with Mrs. Harber's relatives.

Lieut. Harber has recently been promoted to Battalion Adjutant. He trained with the 36th division and was sent to Fort Benning three days before the 36th sailed.

Staff Sgt. Teddy Russell came over from Lebanon, Tenn., last Saturday to spend about fifteen days at home with his parents. Teddy is quite a man now, and his training in the service is developing him in a wonderful way. He will start back next Wednesday.

Camp Gordon Johnson, Florida Sunday, Sept. 26, 1943

Dear Mr. Pope:

Here I am again after so long a time. As usual, I have moved again. It seems that we move a lot and I suppose we do move as much as any Division in U. S. A. We are now on a special training mission in Florida. I am getting along fine with army life but of course I should like very much for the war to end now so that so many of our boys would not have to go through with the horrors and hardships of war. I have not seen any combat service as yet, but expect to in the near future.

I am enjoying my stay here in Florida, although our living conditions are not so good. Our barracks we now live in are just a frame with dirt floors and we have no modern conveniences, such as hot water and we have to stand up to eat. There are lots of snakes here and the flies and mosquitoes are very bad. We can however go swimming everyday and fish any time we are off duty. The swimming is part of our training here so we have to swim two hours every day. We are only one hundred yards from the Gulf of Mexico.

I have traveled from the West Coast to the East and as far north as Pine Camp New York but I will take Texas in place of any of the places I have been. As for being in the army I had rather be in the North as they have a lot more entertainment and are better able to take care of the soldier while he is on leave or in town. I believe that Philadelphia, Pa., is the best place that I have been in so far as entertainment is concerned. They have some of the largest USO's and Y. M. C. A.'s of any place that I have been. Chicago and Detroit have free transportation for the soldiers in the city limits which is very good. In most all the larger towns and cities members of the army and all armed forces can go to shows and all base ball and foot ball games at a very low rate. They are also admitted to shows and theatres at special reduced rates.

How are Hamlin and the Pipers coming along? I have been playing quite a bit of base ball myself but we only came out in third place in the league. I hope to play a little basket ball this winter, provided I don't go into the combat area. Most of the men are ready to go and are well trained for whatever they may encounter.

I hope to see Hamlin in the near future and see the boys and friends there. Until we can all be back in the old town I wish every one the best of every thing and may God speed the ending of this war so that all may return to their homes and families and carry on for a better and peaceful good old U. S. A.

Good luck to all.

Pvt. James T. Townsend, one of the ground men at the Bryan Air Field, came up Sunday to spend the week with his parents, Mr. and Mrs. W. R. Townsend. James has been in about one year now, and is more than ever anxious to get going after the enemy.

Corporal Gleen Winslett, son of Mr. and Mrs. Floyd Winslett, came up from Alexandria, La., Air Base, for an eight days stay at home. Nine months in the service and he likes it fine. Winslett was accompanied from Beaumont by his sister, Mrs. Edward Dodd.

Right at the  
Flip of a Switch!

**M**OST people take electric service for granted... We expect that when our fingers flip the switch, the lights will flash—**instantly!** AND THEY DO!

The same is true of power for the lathes, punches, riveters and other machines that make our war weapons, power to light our factories for night shifts, power to take workers from their homes to their jobs, and back. It's always there, **right at the flip of a switch.**

HOW DID IT GET THERE? That's another story—much more complicated, but very interesting. It's the story of a people who saw a job to do, and rolled up their sleeves and **did it.** Call it initiative—call it **free enterprise**—it's the spirit that has made America great!

The people in our company have that spirit. Years ago they saw the need for electricity that was more plentiful and dependable than ever before. Transmission lines extending into many territories in West Texas, bringing economical electric service to both large and small towns—that was the answer to that need they believed, **AND IT WAS!** They built the lines and the power plants.

Today, we have an interconnected system of steam power plants, each independent of the other, yet so linked together that power is automatically switched from one region to another in event of mishap.

It's the most **dependable** system the world has ever known.

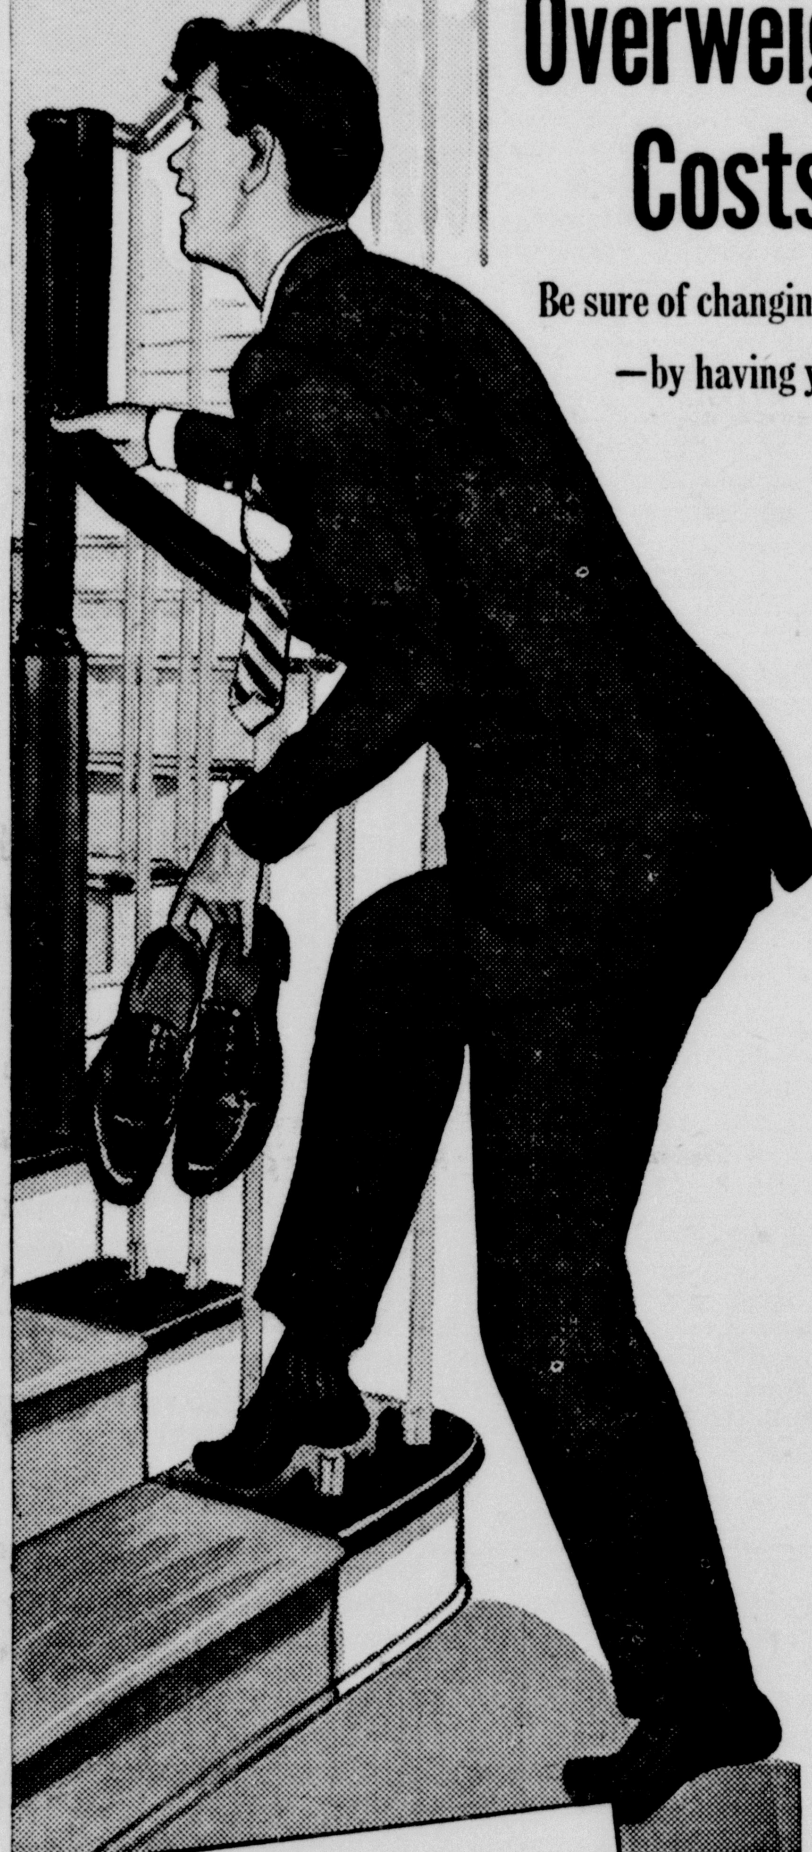

It's yours—all at your fingertips—**right at the flip of a switch!**

## Overweight Motor Oil Costs You Dear

Be sure of changing to your **Lightest** possible grade  
—by having your engine **Winter OIL-PLATED**

Sure as you live...sure as your car must live...you'll want a change to the **lightest** motor oil that your engine can use this Winter of War.

Waiting for a "real cold day" before draining overweight oil that drags when it chills, is like waiting for your battery's doom. This drag of overweight oil wastes gasoline, too. And even worse is the big chance of internal damage because overweight oil won't squirt and spray into friction zones of your engine quickly. For the sake of your battery, your gasoline coupons, and your engine, change to your **lightest** practical grade of oil.

You can quit wondering whether "one grade heavier might be on the safe side." You can be as safe as possible with your engine **OIL-PLATED** by even your **lightest** suitable grade of Conoco N<sup>th</sup> motor oil. Its load-carrying capacity is doubled by synthetic means. And this also creates "magnet-like" action to keep lubricant closely fastened to inner engine surfaces, in the form of **OIL-PLATING**. Even the **lightest** grade of Conoco N<sup>th</sup> oil will give your engine the high protection of **OIL-PLATING**. Ask Your Mileage Merchant today to recommend the grade suitable for your car. Continental Oil Company

## Dread Engine Acid is Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops. Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids. But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine **OIL-PLATED**.

## POT SHOTS FROM M'CAULLEY

BY GEO. DARDEN

Lieut. Albert Maberry and wife and daughter have been visiting in the home of her parents, Mr. and Mrs. John Frank Maberry. We hear that Lieut. Maberry is soon to be made a Captain in Uncle Sam's army.

Corpl. Albert Gallaway Jr. was home on leave last week end from training camp at Bryan, Texas. Albert tells us that he is to leave soon for the cold country where they really wear long-handles.

Miss Thelma Dean is home for a few days from her defense job in Kansas City. Miss Dean plans to work in Fort Worth after her visit here with parents, Mr. and Mrs. John Dean. John Dean has been in the Stamford hospital for several days and is reported to be improving after suffering a broken rib two weeks ago.

Still cloudy in these parts and rain has fallen every day for the past six days, though the surface tanks have caught but little water due to slow drizzles, but the wheat farmers are all smiles.

Quite a few farmers are selling their cattle or most of them due to a short feed crop. Owners of cattle selling last week were E. C. Wal-drop, Pete Humphries and W. A. Hemphill of this community.

Bill and Frank Hooten of Point, Texas, visited their brother, John Hooten who is ill in a Rotan hospital. While here they were visitors in the home of an uncle, Mr. and

Mrs. J. H. Rhoten and cousins, Mr. and Mrs. Jack Johnson.

The McCaulley Boy Scouts are now meeting each Monday night at the school house.

Several of the land owners of this community are leasing their land for oil and new locations are being made for wells near McCaulley.

There is talk of a negro minstrel being put on in the near future sponsored by the P. T. A. The last show of this kind went over big and such shows are a lot of fun, especially when home talent puts it on.

Mr. and Mrs. J. I. Parker are moving to Fort Worth where they will work in defense work. Mr. Parker is selling out and renting his farm.

COMMENT No. 1—Will America be the dumping ground for Europe's war weary millions after this war? Yes, our immigration laws in the past have been too liberal. We have permitted Japs, wops and every nationality to enter the United States and many have become naturalized and since the war have proved that they are not Americans at heart, and many of these are connected with the German-American Bund, and other fifth column groups which seek to destroy our American way of life. Free trade can be carried on among nations without throwing our gates open to every race on earth, and furthermore, after this war all Japs should be deported whether they were born here or elsewhere, and no Jap should ever be permitted to again immigrate to this country and rear their families. The world is large enough for all races to have a country and the white and yellow races have nothing in common and there will never be peace so long as the other races of the earth are permitted to gobble up what our fore fathers fought for. Yes, after the war there will be members of Congress and other government officials who will endeavor to soft-soap the people with their piety for the poor Japs and our other enemies and some may even advocate scrapping our navy, army and air force as was done after the last war, but will the people of the United States stand for it this time? Money has talked too long and loud in the past. It's high time that honesty takes the place of the mighty dollar. When men get back to the Golden Rule, then will our country, our homes and religion survive.
